

# Welcome CASS Pre Conference March 2023

Once you are settled, please visit chart set #1 to identify, using a sharpie, a check mark(s) where you believe your teachers (TQS) and school leaders (LQS) would most value support for their professional growth.

On chart #2 (SLQS or LQS) identify, with check mark(s), where you would like to focus your own professional growth.

# Optimum Learning for All Students in Alberta:

## System Education Leaders Role Supporting Professional Practice

Supporting Implementation of the  
Professional Practice Standards  
CASS 2018

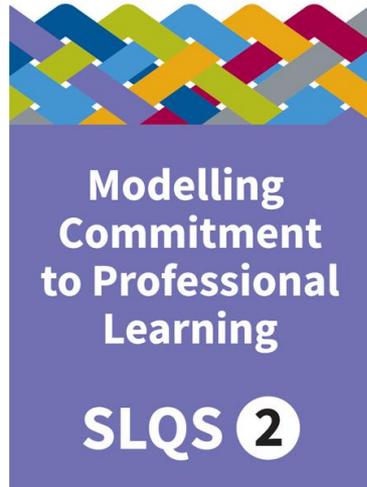

As a result of attending this pre conference you will have the opportunity to:

- Learn about Research related to implementation of professional practice standards.
- Learn from stories of practice that support professional growth
- Reflect on your current practice and consider how your learning today may support you and your school authority practice.

Literature Review ( $n=1$ )

Division Survey Reports ( $n=91$ )

Division Case Study Reports ( $n=40$ )

Survey Report (all divisions) ( $n=4$ )

Cross Case Reports ( $n=3$ )

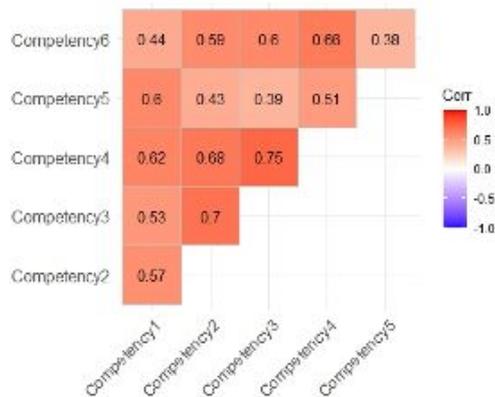

Final Report ( $n=1$ , forthcoming)

## Selected Findings:

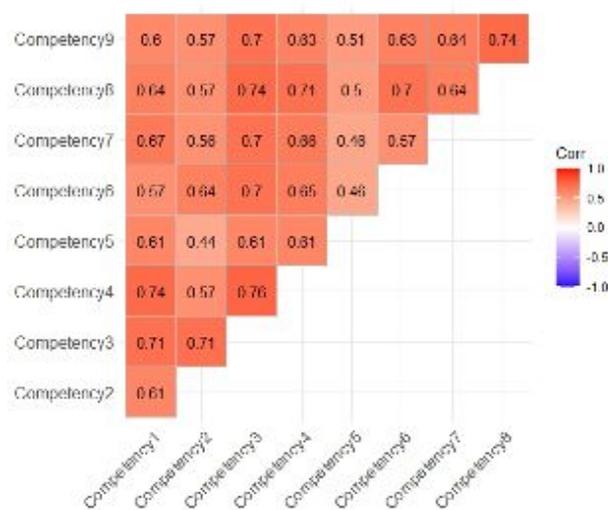

All competencies in each of the Standards are positively correlated.

Correlation Coefficient	Correlation Strength
0.7 to 1.0	Very strong
0.5 – 0.7	Strong
0.3 – 0.5	Moderate

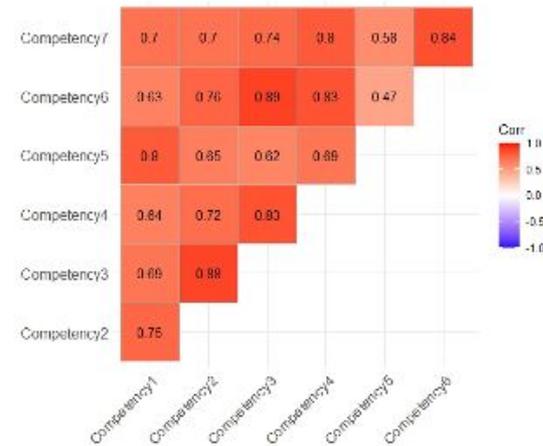

### TQS

### LQS

### SLQS

## Selected Findings:

- ~half teachers indicate school-based professional learning is having a positive impact on their practice.
- Steady decline in leaders reporting in a network formed specifically for the purposes of professional learning.

### TQS

Form of Professional Learning Accessed <small>(what form of PL did you participate in)</small>	Year One (n=2300)	Year Two (n=1160)	Year Three (n=787)	Year Four (n=1289)
Participation in a network of teachers at the school authority level formed specifically for the professional learning of teachers.	1301 (74%)	540 (73%)	314 (65%)	505 (69%)
Professional learning community within the school formed specifically for the professional learning of teachers.	1392 (79%)	570 (77%)	354 (74%)	570 (78%)
<b>Positive Impact on Teaching</b> <small>(The PL activity that had the greatest positive impact on your teaching during the last 12 months, did it have any of the following characteristics?)</small>				
It took place in my school.	810 (47%)	397 (54%)	272 (58%)	398 (55%)
It involved most colleagues from my school.	784 (45%)	383 (52%)	238 (51%)	349 (48%)
It took place over an extended period of time (e.g. several weeks or longer)	888 (51%)	378 (52%)	271 (58%)	389 (54%)

### LQS

Form of Professional Learning Accessed	Year One (n=630)	Year Two (n=444)	Year Three (n=387)	Year Four (n=371)
Participation in a network of school or school authority leaders formed specifically for the professional learning of school and school authority leaders.	381 (85%)	231 (78%)	218 (79%)	179 (77.8%)

### SLQS

Type of Professional Learning Accessed	Year One (n=17)	Year Two (n=36)	Year Three (n=27)	Year Four (n=28)
Participation in a network of school or school authority leaders formed specifically for the professional learning of school and school authority leaders.	28 (88%)	23 (82%)	20 (91%)	20 (90.9%)

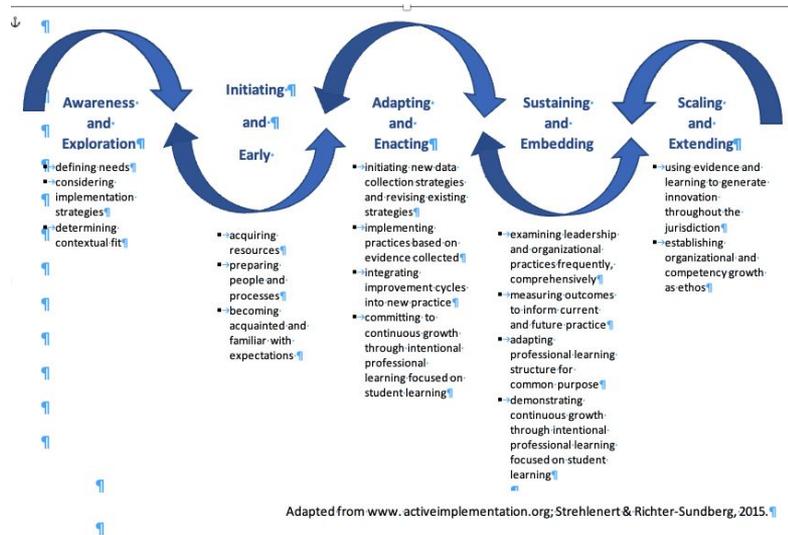

**This leads us to conclude that one of the essential conditions required to realize collective efficacy is not being met. Collective efficacy has been shown to have significant impact on improvement in student learning ( $d=1.57$ ) (Donohoo et al., 2018).**

## Selected Findings:

Teachers, leaders, and superintendent leaders all made gains in implementation advancement in the 4th year.

Visible shift from awareness of standards-as-policy to standards-in-action occurred in more than half the school divisions where standards formed the framework for planning professional learning and professional growth for all teachers, leaders, and superintendents.

Leaders in more than half the school authorities continued to enact evidence-based practices known to improve student learning throughout the four years, even through the pandemic years.

# CASS Pro-spective

## CASS Pro-spective

Share your pro-spective (professional perspective)

The College of Alberta School Superintendents offers a collegial network of members that provides a learned perspective on matters impacting K-12 education. Being engaged in professional dialogue creates learning and collaboration opportunities among members. Sharing research and practice, in support of the needs of public education, offers perspective and learning on leadership practices that will *result in quality school leadership, quality teaching, and optimum learning for all students in the province.*

This site provides engagement opportunities that are framed around current and emergent education topics.

Strategies to capture members research, practice and expertise include:

**Discussions:** Nurture discussion, dialogue and debate. **Ideas:** Offer thoughts or suggestions. **Stories:** Members share a story of professional practice.

**PROJECT**

SPRING 2023

### System Education Leaders Role Supporting Professional Practice

The professional practice standards for system education leaders represents the expectation for supporting schools leaders and teachers' growth. Many approaches and strategies to build professional capacity exist. This engagement focuses on data used to measure impact and results.

[View Project](#)

About this Project

This learning opportunity (CASS Pre Conference March 2022) provided an overview of the results of the Alberta Post-Secondary collective research on implementation of the professional practice standards and stories of practice of how school authorities are supporting teachers and leaders professional learning. This engagement provides an opportunity to focus on measuring impact of actions and supports provided through professional learning opportunities.

# School Engagement for Growth

Senior Leadership have ongoing PGP Conversations with School Leaders

School Leaders Review Staff PGP - Use Data for Annual PD Plan

Collaborative Response Team Meetings - Lag and Lead Data inform professional learning needs

Staff Collaboration - monthly opportunity for staff to work together to advance goals.

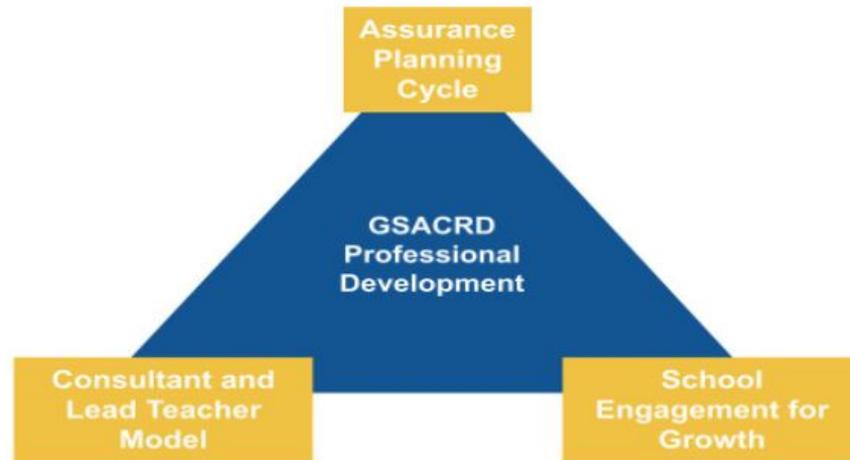

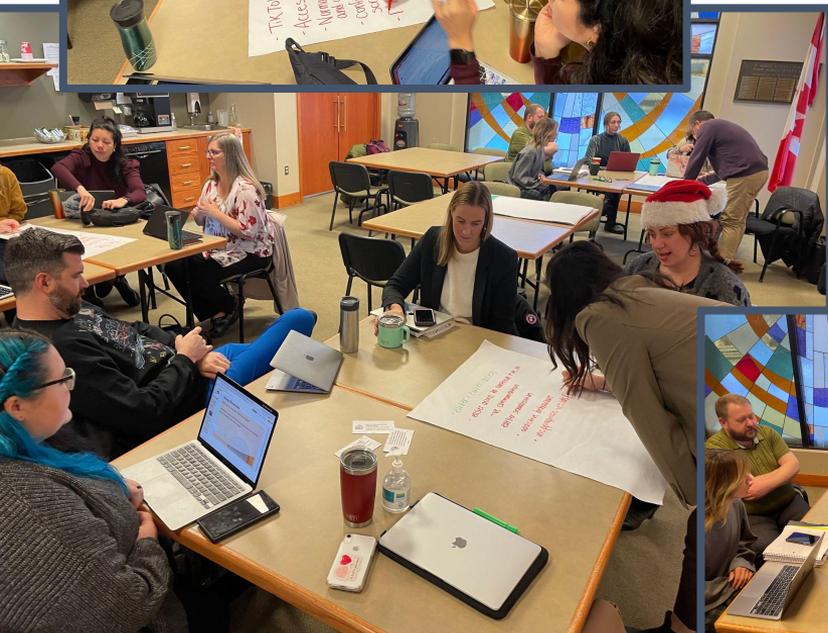

# How do we know it is having an impact?

- **Teachers report through AEAM and Division Assurance Surveys very high satisfaction in these three areas, and have been consistent over 5 years.**
  - **Professional learning opportunities are focused on the priorities of the division (97%)**
  - **Professional learning opportunities effectively address professional growth needs (91%)**
  - **Professional learning opportunities significantly contributed to on-going professional growth (92%)**
- **High levels of participation in professional development sessions embedded during the day and those offered outside of working hours.**
- **Targeted areas seeing measurable growth in student learning.**

# Other/Questions

# Break

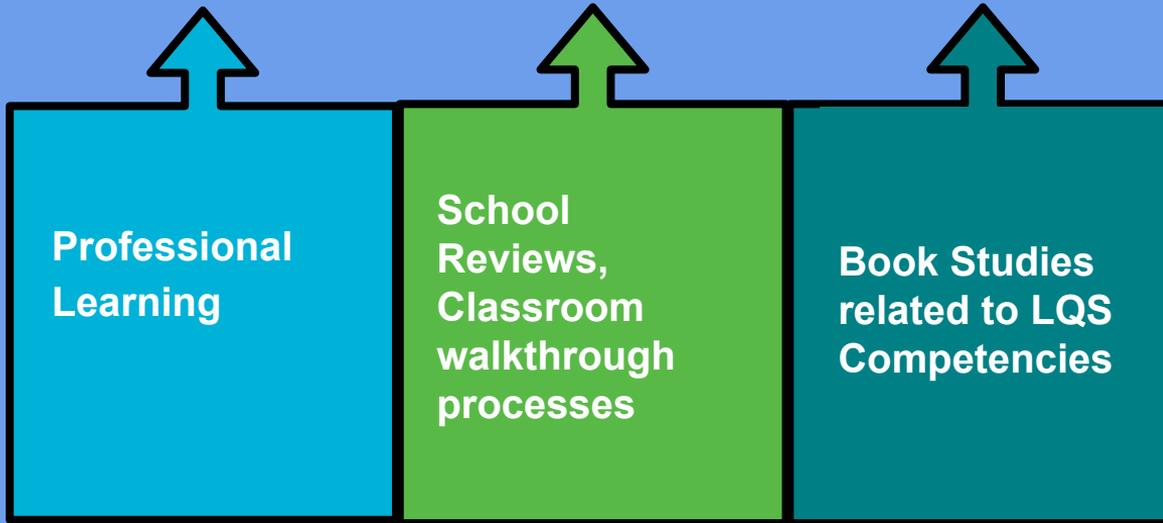

**Brenda Herder**

**bherder@brsd.ab.ca**

## **Focus Questions:**

- **How are we supporting professional practice?**
- **How do we know that our efforts are having an impact?**

***Developing LQS with a Focus on  
Professional Learning, Practice and  
Support***

## ***Gathering evidence to determine needs:***

---

- PGP progress
- School Data Review with Administrators
- School Review meeting CR debriefs
- Classroom Walkthrough Data

# *Develop leadership skills with targeted support for instructional leadership*

## **What will we accept as evidence of success?**

### Administrators:

- Transfer professional learning to application
- Develop and implement learning visit plans
- Increase confidence and competence in using evidence-informed data to guide reflective questioning

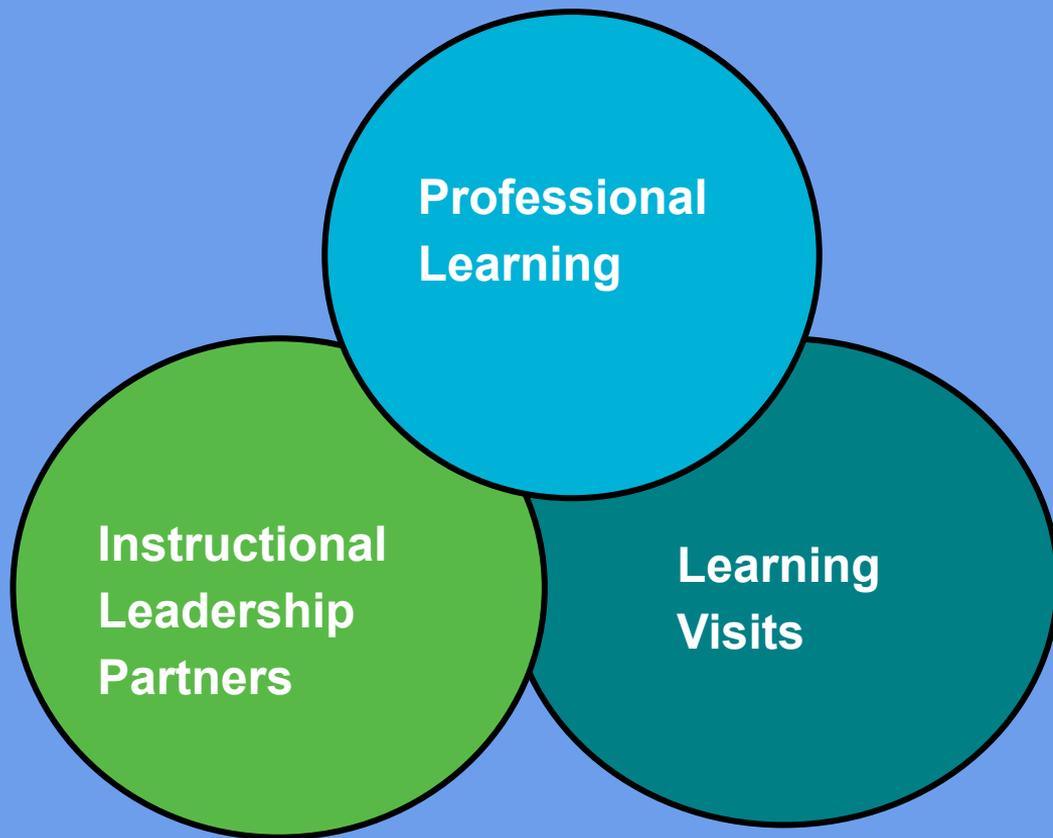

### Teachers:

- Identify learning visits as positively impacting practice

	
<b>Developing Leadership Capacity</b>	<b>Providing Instructional Leadership</b>
<b>LQS 7</b>	<b>LQS 6</b>

# *Supporting Instructional Leadership Capacity*

# *How do we know that our efforts are having an impact?*

- Active engagement in professional learning and practice sessions
- Administrator affirmations of success with learning visits
- Evidence of learning visit plans, templates, reflective feedback
- Administrators protecting and scheduling time for instructional leadership work
- Learning visits/debriefs with teachers at all course/grade levels

Providing  
Instructional  
Leadership

LQS 6

# Challenges ...

- Time needed to build trusting relationships with staff
- Dedicated time to engage in learning visits and debriefs
- Measuring the impact on teacher practice and student learning
- Supporting the differentiated needs of administrators

# ***Additional Growth data ..***

---

- Administrators using a deepened understanding of teacher practice to inform school decision making
- Learning visits shifting to two way conversations
- Increase in teacher efficacy - report “feeling seen and heard”

**St. Paul Education**

*Learning Together, Growing Together*

# Modeling Commitment to Professional Learning:

A superintendent engages in **career-long** professional learning and **ongoing critical reflection, identifying and acting on research informed opportunities** for enhancing leadership, teaching and learning.

**Peter Barron**

**barrpete@sperd.ca**

**St. Paul Education**

*Learning Together, Growing Together*

# **Modeling Commitment to Professional Learning:**

I need:

To be willing to be uncomfortable.

To challenge my assumptions.

To critique my current practices.

To accept the possibility that I could be completely wrong.

**St. Paul Education**

*Learning Together, Growing Together*

To learn is to change

To lead is to change

To lead is to learn

**St. Paul Education**

*Learning Together, Growing Together*

- d. seeking and critically reviewing educational research and applying it to decisions and practices, as appropriate;

## Challenges

- a. How do you access research?
- b. How do you evaluate research?

**St. Paul Education**

*Learning Together, Growing Together*

McGregor, S. L. T. (2018). *Understanding and Evaluating Research: A Critical Guide*. SAGE Publications, Inc.

<https://doi.org/10.4135/9781071802656>

### **Critiquing a Journal Article**

Note that you are **not just criticizing** the article, meaning you are not just trying to find fault with it (for there may indeed be errors).

To **critique** an article, you must *appraise it critically*, meaning you will conduct a detailed **analysis** of its structure and then conduct an assessment of it (**appraise it**).

**Analyzing** entails examining, in detail, the various elements of the structure of the paper (the main components of a research report: e.g., research question, literature review, and conclusions).

**Assessing** an article entails striving *to judge its worth* as research that you can confidently use in your practice, scholarly efforts, or both.

So, you are going to

1. Repeatedly **read** *the article* (at the surface and deeper levels)
2. **Identify the elements** used to organize and write it (e.g., method, results, and discussion)
3. **Analyze these elements** individually, passing judgment on **each** element as you read it (i.e., critically appraise it: good, bad, or not sure)
4. **Assess or judge the worth** of the *entire study and the article* (good, bad, or not sure)

**St. Paul Education**

*Learning Together, Growing Together*

## The Current Evidence-Practice Gap

Research we see now (14%)

Research we'll see  
in 17 years if  
researchers  
continue to  
engage in the  
traditional process

**St. Paul Education**

*Learning Together, Growing Together*

Quality superintendent leadership occurs when the superintendent's ongoing analysis of the context, and the superintendent's decisions about what leadership knowledge and abilities to apply, result in quality school leadership, quality teaching and **optimum learning for all students in the school authority.**

**St. Paul Education**

*Learning Together, Growing Together*

Business plan: Alberta students are successful.  
Performance metric: High school completion 5  
year rate (2022-23 - 87.1%)

## Performance Metrics

1.a **Performance Measure: High school completion rate** (2021-22 data available June 2023)

High school completion is important for entry into the labour force and post-secondary programs. In 2020-21, 87.1 per cent of students completed high school within five years of entering Grade 10.

<b>Targets</b>	<b>2023-24</b>	87.3%	<b>2024-25</b>	87.5%	<b>2025-26</b>	87.7%
----------------	----------------	-------	----------------	-------	----------------	-------

At an increase of .2% per year, all children will be completing high school by the year 2087.

## **Consequences for not completing high school:**

- Individual consequences include low levels of academic skills and an absence of educational credentials, which translate into unfavourable labour market outcomes.
- Economic and social outcomes include forgone national income and tax revenues, increased demand for social services, increased crime, reduced social participation, reduced intergenerational mobility and poorer levels of health.

Uppal, S. (2017). Insights on Canadian Society Young men and women without a high school diploma. Statistics Canada.

<https://www150.statcan.gc.ca/n1/pub/75-006-x/2017001/article/14824-eng.htm>

# Business plan: First Nations, Métis, and Inuit students in Alberta are successful

## Performance metric: High school completion 5 year rate (2022-23 - 68%)

### Performance Metrics

2.a **Performance Measure: High school completion rate of self-identified First Nations, Métis and Inuit students** (2021-22 data available June 2023)

High school completion is important for entry into the labour force and post-secondary programs. In 2020-21, 68.0 per cent of self-identified students completed high school within five years of entering Grade 10.

<b>Targets</b>	<b>2023-24</b>	68.7%	<b>2024-25</b>	69.0%	<b>2025-26</b>	69.3%
----------------	----------------	-------	----------------	-------	----------------	-------

At an increase of .3% per year, all FNMI students will be completing high school by the year 2113.

**St. Paul Education**

*Learning Together, Growing Together*

What do I need to learn as a leader to provide optimum learning so that all students in my school division complete high school?

**St. Paul Education**

*Learning Together, Growing Together*

**In the end, it is important to remember  
that we cannot become what we need to be  
by remaining who we are.**

***Max DePree***

**St. Paul Education**

*Learning Together, Growing Together*

# My learning journey

- Enrolled in Western in their Ed. D. program
- Focus on a problem of practice where I work.  
(deficit thinking)
- Sharing my learning with my leadership team.
- ARN project

**St. Paul Education**

*Learning Together, Growing Together*

Every system is perfectly designed  
to get the result that it does.

W. Edwards Deming

## Ideas

### Data Collected to Measure the Impact of Professional Learning

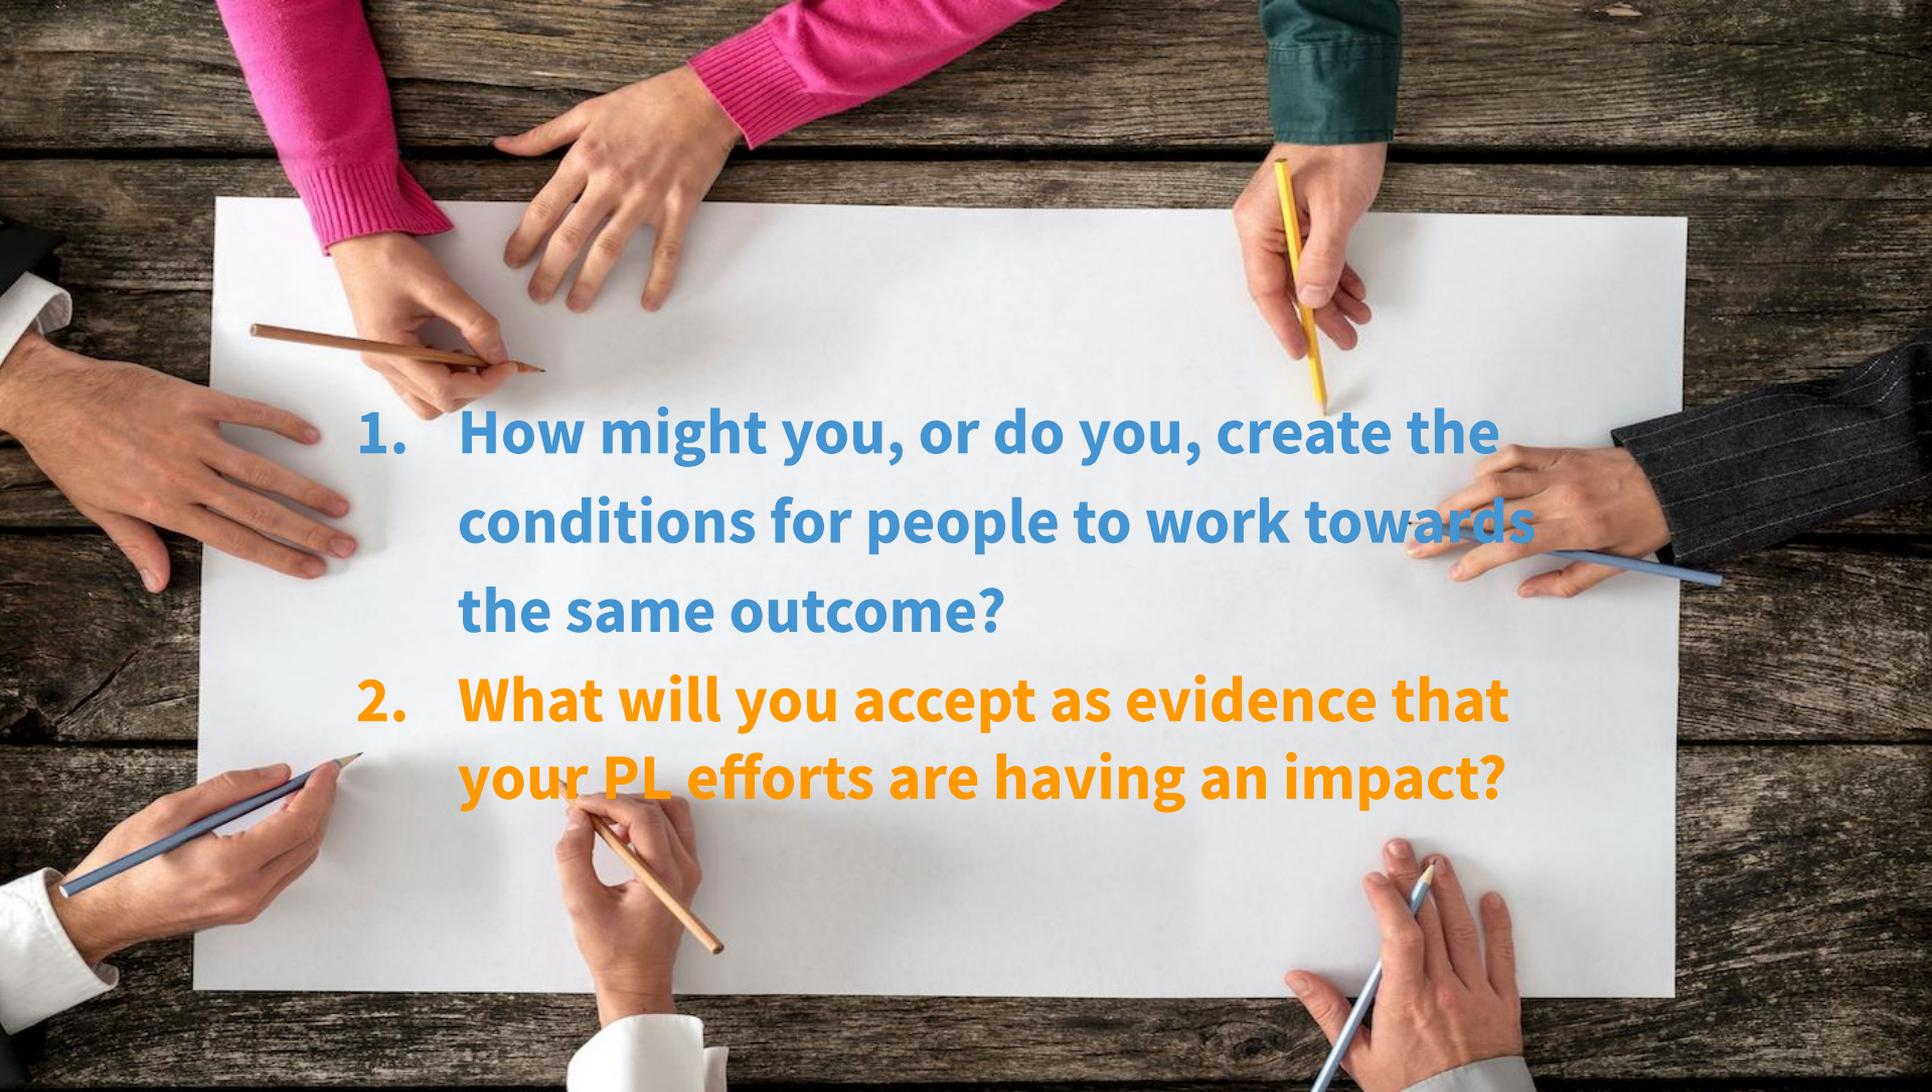

What data do you use to inform the design of your school authorities' Professional Learning plans for TQS or LQS? Share individual data sources or, if you were with a table group, the themes generated from your conversations.

The data sources used to inform the design of professional learning plans for TQS or LQS by school authorities include literacy and numeracy data, PAT and Dip data, writing data, student voice data, teacher input, surveys, tracking of students after graduation, local and provincial achievement results, attendance data, observations, focus groups, and feedback surveys from stakeholders such as parents, students, teachers, and board members. Other factors that influence the professional learning plans include board priorities, provincial directives, and feedback from invested partners. The professional learning plans aim to address local and regional trends and to support the development of teachers' professional knowledge and skills.
